*Examiner's Statement of Reasons for Allowance*

1. This office action is in response to the amendment filed on November 26, 2004. Previous office action contained claims 1-9. Applicant cancelled claims 2 and 3, and amended claims 1, and 4-9. Amendment filed on November 26, 2004 have been entered and made of record.

2. Claims 1 and 4-9 are allowed

3. Claims include limitations that the prior art of record does not appear to teach or render obvious the claimed limitations as recited below.

4. The following is a statement of reasons for the indication of allowable subject matter:

Coss et al. U.S. Patent 6,434,619 teach a firewall is able to support multiple security policies and users by applying nay one of several distinct sets of access rules for a given packet. The particular rule set is applied for any packet can be determined based on information of the incoming and outgoing network interfaces as well as network source and destination address; however, the prior art of record fails to teach or suggest individually or in combination as stated in claims 1 "a function association selector configured to associated each interface to one of plurality of control function parts, and the function association selector including a function managing table, an identifier imparting part, a function selector, and an output interface selector configured to select a second interface corresponding to the identifier imparted to the packet via the function managing table, and configured to deliver the packet to the selected interface" and in combination with other limitations as set forth in the independent claims. Claims 4-9 are allowed due to dependent claims.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
